

**The System can be taken out of Valet mode by one of the following procedures:**

1. **No Remote:** If there are no remotes or there are no remotes available you can exit Valet Mode by turning the key to the ignition or 'On' position then press and release the foot brake pedal 10 times within 10 seconds. This procedure will only deactivate Valet Mode it will not activate Valet Mode. The vehicles parking lights should flash 2 times to indicate the system has exited valet mode
2. **With Remote:** While within remote range of the vehicle, using a 4 button remote, press and release the lock and trunk button together simultaneously for a half second. The vehicle's parking lights will flash 2 times to indicate the system has exited Valet Mode.
  - a. **When using a 1 button remote** to exit valet turn the key to the ignition or 'On' position. Press and release the remote button for a half second. Wait for the remote LED to stop flashing and repeat for a total of 5 times within 10 seconds. Once you have tapped the remote button 5 times the vehicles parking lights will flash 2 times to indicate the system has exited Valet Mode.
3. Valet Mode can also be disabled using DroneMobile from the users account at [www.dronemobile.com](http://www.dronemobile.com). Once logged in to the user account select the settings tab. Then select the controller settings, check Valet mode and click Save. (If valet mode is already checked, uncheck it and then click save it should exit valet) Once you have saved it then go back to controller settings, then uncheck valet mode and click save it should exit Valet Mode.

**Instructions for products listed as "Direct Fit"**

Using they key for your vehicle, turn they key in the ignition cylinder to the "On" position 5 times in a row within 10 seconds. Do not start the vehicle when turning the key. Turn the key 2 clicks forward so that all the normal instrument lights come on. If done properly you should receive 2 parking light flashes from the remote start to indicate it has exited Valet Mode.
